THE OFFICIAL GUIDE

Ai Smart Board

Lessons, whiteboard, exams and reports.
Everything a teacher needs, in one app.

VERSION 1.0 · THE COMPLETE GUIDE

aismartboardapp.com

WELCOME

A smarter way to teach every class

Thank you for choosing Ai Smart Board. This guide shows you the app, the website and everything you need to start teaching with it.

Keep it next to your computer. Every page is short and practical, with real screens from the app.

MEET THE APP

One app for the whole lesson

Ai Smart Board turns your own material into a full lesson: slides, a lesson plan, a board script and an interactive book. You teach from it on Zoom or in the classroom.

Two windows, two jobs. The **Teacher Dashboard** is your private control room: only you see it. The **Presentation** window is what your students see. You share it in Zoom or show it on the classroom screen.

Your screen

Plan, notes and controls stay private.

Their screen

One clean window to share or project.

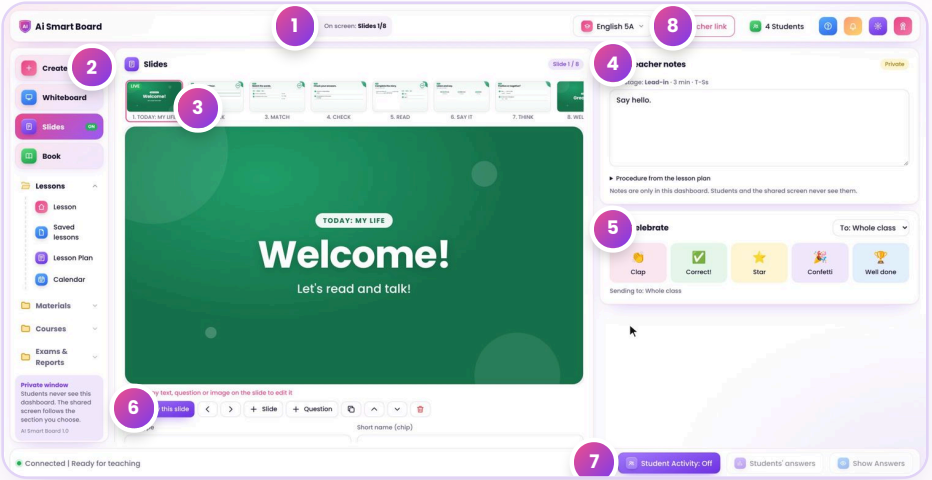

Their phones

Students answer on their own devices.

THE APP

Your Teacher Dashboard

Everything you need to run the lesson, in one place. Your students never see this screen.

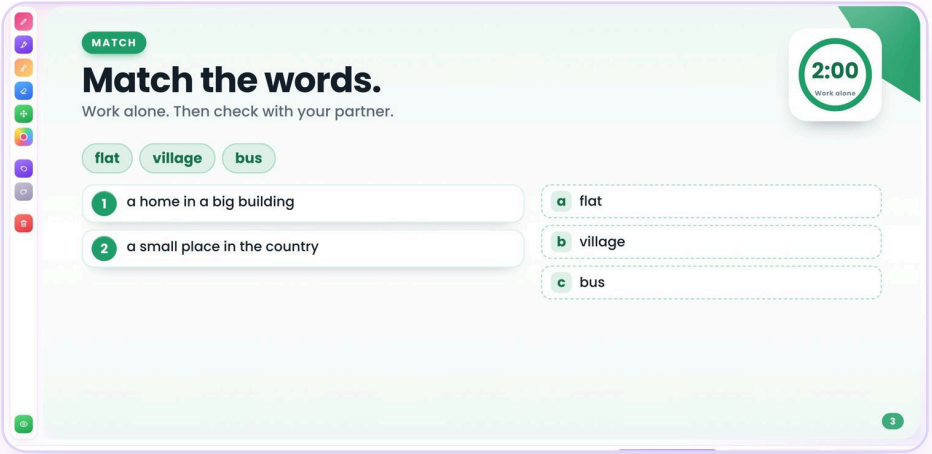

1. **Live.** What is on your students' screen now.
2. **Create Lesson.** Start a new lesson from your material.
3. **Slides.** Every slide of the lesson. Click one to show it.
4. **Teacher notes.** Private notes for each slide.
5. **Celebrate.** Clap, Star or Confetti for the class.
6. **Show this slide.** Send the slide to the shared screen.
7. **Student Activity.** Let students answer, then show answers.
8. **Teacher link.** Control the class from your phone.

THE APP

The Presentation window

This is the screen your students see: big, clear and easy to read from the back of the room.

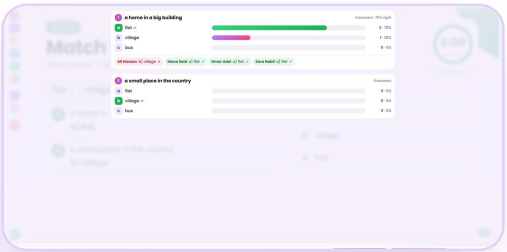

Live

Students see every change at once: a new slide, a picture, your writing.

Freeze

Prepare the next part in private while the shared screen and the students stay where they are.

Tip: the timer, Show Answers and celebrations work in both Live and Freeze.

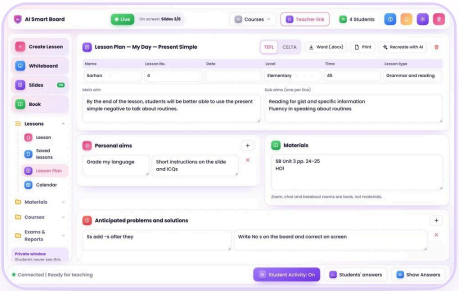

Show Answers marks the right answer and shows how many students chose each one, with names, before you reveal it.

MAKE LESSONS FAST

Lessons made with AI, in your own style

Upload a PDF, a PowerPoint or pages from your book. Ai Smart Board prepares the lesson for you, and you can edit every part.

- A full lesson plan in TEFL or CELTA format
- Slides that look like yours
- A board script, line by line
- An interactive textbook, Cambridge One style
- Download the plan as Word, or print it

Interactive book

Upload the book as PDF or pictures and add activities. Students answer on their phones.

No AI key? No problem

Manual mode shares your files exactly as they are. A key adds AI plans, slides and activities.

TEACH LIVE

A real whiteboard, fair exams and clear reports

Smart whiteboard

Pressure pen, calligraphy pen for Arabic and English, highlighter. Messy writing becomes beautiful.

Exams

Create an exam in minutes. PIN, timers and random questions stop cheating.

Excel built in

Open .xlsx or .csv files and show a sheet to the class, live.

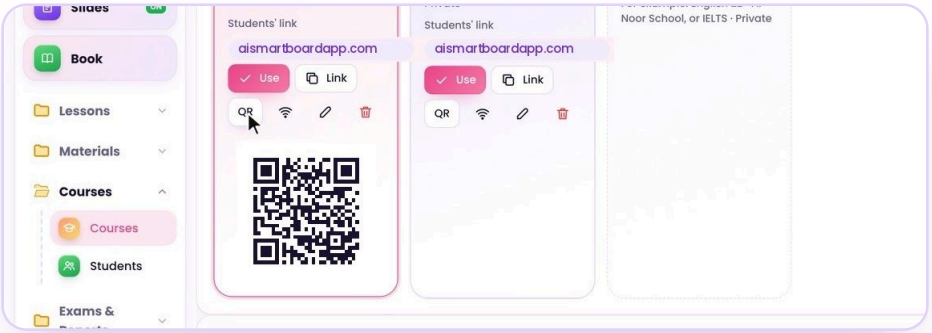

Reports and certificates

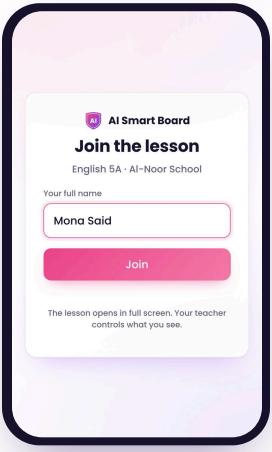

Reports in PDF and Excel, and certificates with your logo.

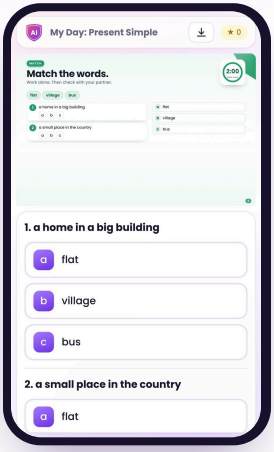

YOUR CLASS

Students join with one link

No app to install. Students open the course link or scan the QR code, write their name and join.

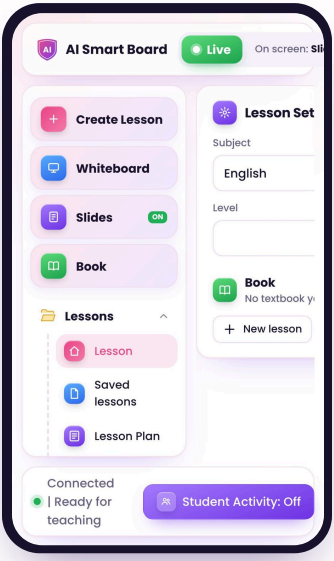

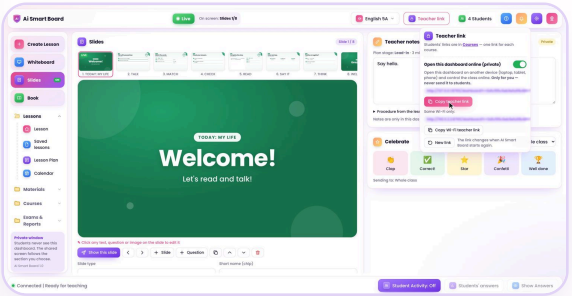

1. Open the **link** or scan the **QR code**.
2. Write your **full name** and tap Join.
3. Answer on your phone. The teacher sees every answer.

YOUR CLASS

Control the class from your phone

Walk around the room and still change slides, show answers and celebrate, from your phone or tablet.

1. In the dashboard, click **Teacher link** and switch it on.

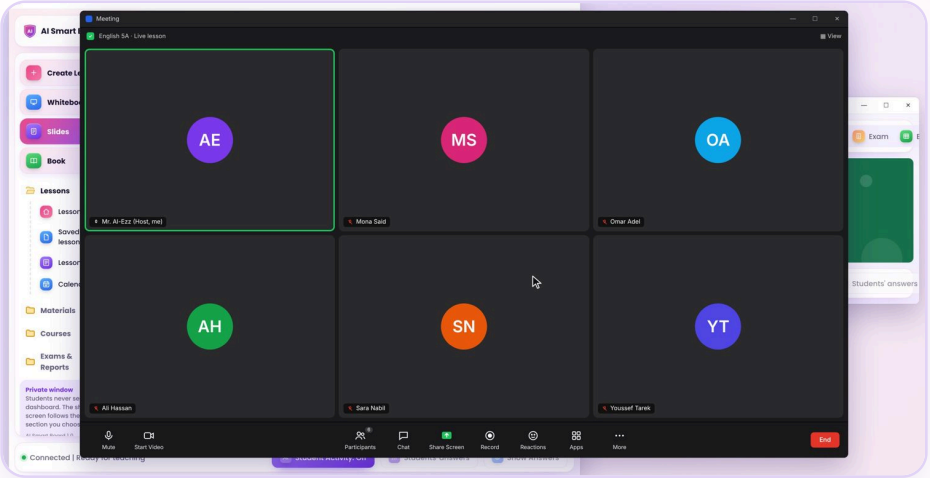

2. Copy the link and open it on **your own phone**.

3. Need a fresh link? Click **New link**: the old one stops working at once.

Private: the teacher link is only for you. Never send it to students.

ANYWHERE

Teach on Zoom or in the classroom

Online

In Zoom, Google Meet or Teams, share only the Presentation window. Your dashboard stays private.

In class

Show the Presentation window on a projector or smart board. Touch screens and pens work.

Good to know: lessons and student work are saved on your own computer.

Works with

Zoom · Google Meet · Microsoft Teams · Projectors · Smart boards · Touch screens · Pens · iPhone · Android · Tablets · Laptops

GETTING STARTED

Install on Windows

Ai Smart Board runs on the teacher's Windows computer. Students join from any device.

Windows 10 or 11

64 bit, with Edge or Chrome.

Internet

To share the lesson link, and for AI.

Zoom or a screen

Zoom, Meet, Teams or a projector.

1 **Get your copy**

Choose your plan, then send us a message. We send you **your own copy** with a download link.

2 **Extract**

Download the zip file. Right click it, choose **Extract All**, then **Extract**.

3 **Open**

Open the new folder and double click **Ai Smart Board**. If Windows shows a blue message, click **More info**, then **Run anyway** (first time only).

4 **Activate**

The first time, send us the activation link. We activate your copy once, and it opens every day.

GETTING STARTED

Your first lesson in five steps

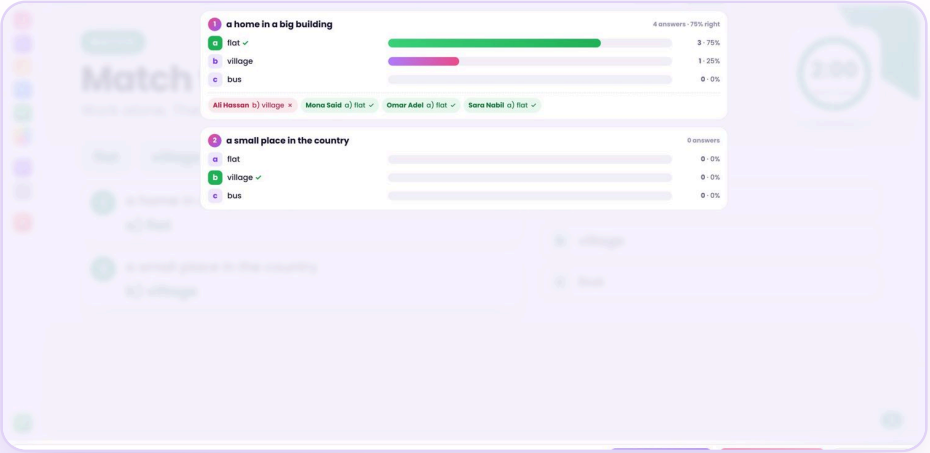

1 **Make a course**
Open **Courses** and add one course for each class.

2 **Create the lesson**
Click **Create Lesson** and upload your PDF, PowerPoint or book pages.

3 **Share the window**
In Zoom, share the **Presentation** window, or show it on the class screen.

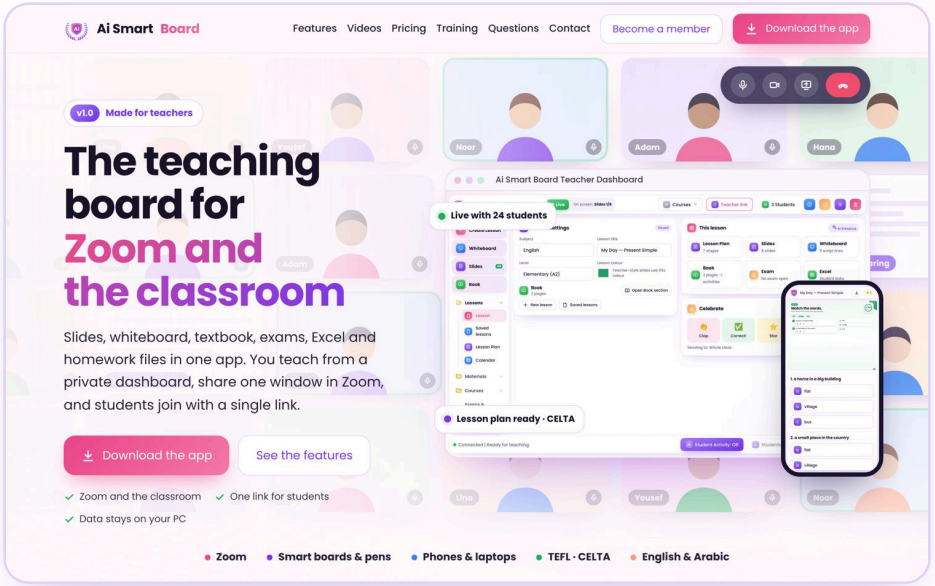

4 **Students join**
Send the course link or show the QR code. They join from any phone.

5 **Teach**
Click a slide, then **Show this slide**. Turn on **Student Activity** and watch the answers arrive.

THE WEBSITE

Everything online at aismartboardapp.com

- Download the Ai Smart Board app
- Plans, prices and secure card payment
- Training courses for teachers
- Every video lesson
- Installation guides for every device
- Membership and partners
- The Assessment Service
- Contact us in one tap

A light app for your computer or phone. Send us your request with your code, choose your plan, and we send you your own copy of Ai Smart Board.

Windows
Windows 10 and 11. Install the app in one click from Chrome or Edge.
Download the app
Installation guide, PDF 4K

Mac
Any Mac. Install it from Chrome, Edge or Safari (File, Add to Dock).
Download the app
Installation guide, PDF 4K

Linux
Ubuntu, Debian, Fedora and more. Install it from Chrome or Edge.
Download the app
Installation guide, PDF 4K

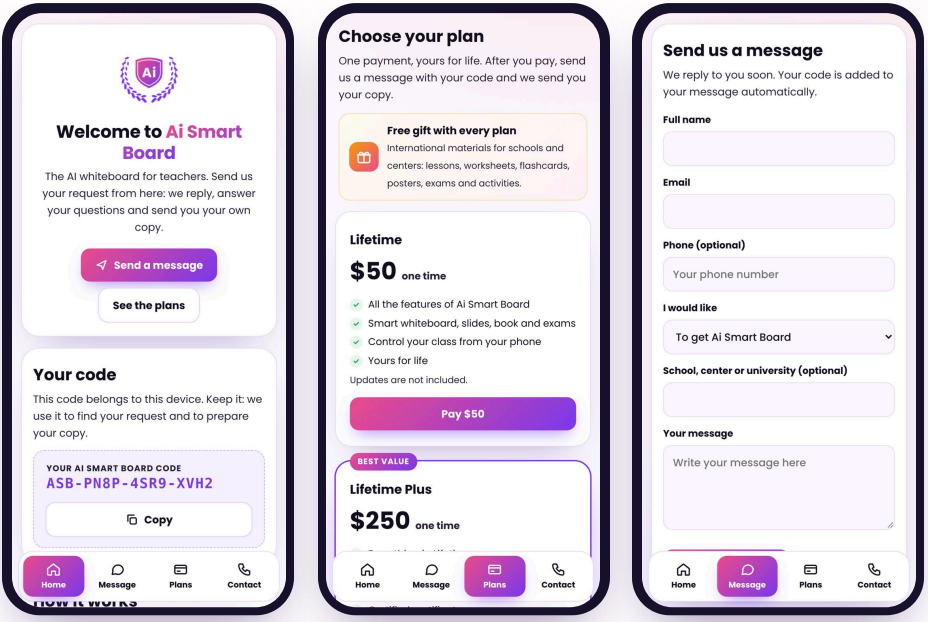

Phone
iPhone and Android. Add it to your home screen: it opens like any app.
Download the app
Installation guide, PDF 4K

The app is free and very light: it opens in its own window with its own icon. Ai Smart Board itself runs on the teacher's computer, and students join from any phone, tablet or computer with one link.

ON YOUR PHONE OR COMPUTER

The Ai Smart Board app

A light app you install from the website in one tap, on Windows, Mac, Android and iPhone. Use it to talk to us, choose your plan and get your own copy.

1. Open the website and tap **Download the app**.

2. Install it: **Install** on Android and computers, **Share, Add to Home Screen** on iPhone.

3. Send us a message. **Your code** is added to you.

PLANS

Plans and prices

Pay once for life, or choose VIP monthly or yearly. Secure card payment.

Lifetime
$50 one time

- All the features
- Yours for life
- Updates not included

BEST VALUE

Lifetime Plus
$250 one time

- All future updates
- Live online course
- Certified certificate

3. We send you **your own copy**, ready to activate.

JOIN US

Membership, training and assessment

Become a member

- A membership certificate and a member card, for a center or a person
- Education resources, global and always updated
- Invitations to every Ai Smart Board conference
- Your logo on our website, in Our members

Workshop

Online Teaching Basics. One day, 3 hours.

Course

Online Teaching and Its Tools. 4 weeks.

Diploma

Distance Learning and AI. 3 months.

Every program ends with a certified certificate.

Assessment Service

For schools, universities and online centers, under contract: an initial evaluation of every student with fair, proctored online exams, then a full report for your institution.

PRIVACY FIRST

Your class stays yours

- Lessons and student work are saved on the teacher's own computer.
- Students see only the shared screen and their own work, never other students' answers or your notes.
- The Teacher Dashboard opens only on your computer.
- Each student's device has its own private key.
- The AI receives only your lesson material, never student names or answers.

QUESTIONS

Good to know

Can I download Ai Smart Board?

Yes. Download the installation guide for your device, choose your plan and send us a message. We send you your own copy, activated for your computer.

Do I need an AI key?

No. Manual mode shares your files exactly as they are, and the whiteboard, book, exams, Excel and files all work. A key adds AI lesson plans, slides and activities.

Do students need to install anything?

No. They open the link in any browser on a phone, tablet or laptop, write their name once, and they are in.

Does it work in a real classroom?

Yes. Show the Presentation window on a projector or smart board. It works with touch screens and pens.

Can students see my notes or other answers?

No. Students see only the shared screen and their own work.

How do I get help?

Send us a message on WhatsApp or by email, or watch the video for each feature on our YouTube channel.

LEARN

Learn on YouTube

43 short video lessons, one feature in each, in seven parts.
